

VISION OF THE MINISTRY FOR SECTOR AND HUDCO

1. Ministry Vision = Massive Growth Opportunity

- Urbanisation
- PMAY 2.0
- Infrastructure demand
- Climate-resilient cities

2. HUDCO Fully Supports This Vision

- Highest ever sanctions
- Highest ever disbursements
- Strong pipeline
- Continued growth proposed for FY27

3. However, FY27 Faces New External Challenges

- Global uncertainty
- Geopolitical tensions
- Inflation
- Interest-rate pressures
- State fiscal constraints

4. Therefore Target Calibration Is Needed

Not because opportunity has reduced, but because:

- HUDCO's mandate is developmental,
- Borrowers face fiscal constraints,
- FY26 included exceptional one-time gains,
- Certain profitability targets are mathematically disconnected from operating realities.
